

# USB-C Gigabit + PoE Adapter

Part #: C6-NETPOE MSRP: \$99

Designed for use with iPad.

May or may not support Android, Surface or other tablets.

## Connect to Ethernet and Power

The USB-C Gigabit + PoE Adapter connects iPads and iPhones to gigabit ethernet and uses power over ethernet (PoE+) to charge the device. This enables an iPad to receive both data and power over a single Ethernet cable when connected to a PoE+ enabled switch or a PoE+ injector.

This adapter is instantly recognized by iOS as a network connection. The ethernet connection is available for use by any iOS app and can be configured using the Settings app on an iPad. The adapter complies with iPad charging specifications published by Apple

The adapter physically connects to the iPad or iPhone using a USB-C to USB-C cable (sold separately). It supports 10/100/1000 networking and provides bandwidth up to 900 Mbps depending upon the USB-C cable being used.

## Specifications

### Ethernet

- 10/100/1000
- RJ45 Auto MDX connector

### Power Over Ethernet

- Use with a 48v PoE+ (802.3at) switch or injector
- Power required at PoE+ port: 30W

### iOS

- For use with any iPad or iPhone with USB-C connector
- Requires iOS 16.5 or later

### USB Connection to iPad

- Use an Apple USB-C Cable or a USB-IF certified USB-C cable

### Environmental

- Temperature Range: 0C - 55C

### Other

- Part#: C6-NETPOE
- MSRP: \$99
- UPC#: 013964221701
- FCC/CE: Class A device
- Warranty: 1 year
- Dimensions: 3.50" x 2.35" x .95"
